Physiotherapy, Occupational Therapy,
Nursing Care & Rehabilitation Cost Consultants.
Expert Witness Services.**

ASSISTED IN RECENT SUCESSFUL CASES

In the Case of a road traffic accident victim who suffered life-changing injuries we assisted by preparing a **Physiotherapy Report** to comment on present and future Physiotherapy and Equipment needed for the rest of the claimants life.

The outcome was a settlement of **£2.1 million** and periodical payments of **£300,000** per annum.

The Instructing Solicitor wrote *'thank you for your considerable assistance throughout this case, without which, we are unlikely to have achieved such a successful outcome for the client'*.

In a **Negligence Case** we assisted by preparing a Physiotherapy and Occupational Therapy combined Report for a wheelchair dependant gentleman.

The settlement agreed was **£625,000**.

The Instructing Solicitor wrote *'thank you for your continued assistance and patience throughout this matter, particularly given that I appreciate we were working to an extremely short time scale'*.

In a **Negligence Case** we assisted by preparing a Report dealing with the breach of duty of the Physiotherapist. The outcome was a settlement of **£2,000.00**.
